JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

A death from plague at Honolulu.

HONOLULU, H. I., *May 10, 1902,*
via San Francisco, Cal., May 17, 1902.

WYMAN, *Washington, D. C.:*

There was a death from plague at Honolulu on May 8. Will resume restrictions when conditions warrant.

COFER.

HONDURAS.

Weekly report of conditions and transactions at Puerto Cortez—Fruit port.

LA CEIBA, HONDURAS, *May 3, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended May 3, 1902:

Population according to census—no official census. Present estimated population, about 4,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, 3. Prevailing diseases, malarial. General sanitary condition of the port and surrounding country during the week, good.

Bills of health were issued to the following vessels: April 28, American steamship *David*, number of crew, 23; number of passengers from this port, none; number of passengers in transit, none; pieces of baggage disinfected, none. May 2, British steamship *Usk*, number of crew, 20; number of passengers from this port, none; number of passengers in transit, none; pieces of baggage disinfected none.

Respectfully,

W. B. ROBERTSON,
Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,
U. S. Marine-Hospital Service.

Weekly report of conditions and transactions at Puerto Cortes—Fruit port.

PUERTO CORTES, *May 7, 1902.*

SIR: I have the honor to make the following report of the conditions and transactions at this port during the week ended May 7, 1902:

Population according to census of 1898, 1,800; present officially estimated population, 2,000. Number of cases and deaths from yellow fever during the week, none; number of cases and deaths from smallpox during the week, none; number of cases and deaths from typhus fever during the week, none; number of cases and deaths from cholera during the week, none; number of cases and deaths from plague during the week, none; number of deaths from other causes during the week, none. Prevailing disease, malarial fever. General sanitary condition of this port and the surrounding country during the week, good. Indirect information from physician of Sacapa, Guatemala, of 3 deaths from yellow fever (2 black vomit). Sacapa is in direct railroad communication with Puerto Barrios, five hours north of this port. So far constant communication between these latter places.

Bills of health were issued to the following vessels: May 1, steamship
